3.3 Washing programs

The dishwasher is equipped with a control panel, described in chapter "3. Description of the controls", from which it is possible to carry out all the power switch-on, switch-off and programming operations.

Before starting a washing program make sure that:

- The water supply tap is **open**.
- The **correct amount of detergent** has been added to the **dispenser**.
- The baskets have been **correctly loaded**.
- The spray arms are able to **rotate freely** and without obstruction.
- The dishwasher door is **securely closed**.

Warning:

during the initial phase of the washing program, the operation of sprayers is not perceived because they start rotating about 5 minutes after the start. This is the normal operation of the washing cycle.

SWITCHING ON

When the **ON/OFF** button (1) is pressed, the dishwasher switches on. The indicator lights will display the dishwasher's "status".

PROGRAMMING

Programming operations are only possible with the **door closed**. As long as the door is open, the **PROGRAMS** (6) lights remain off.

PROGRAM SELECTION

Press the **PROGRAM SELECTION** button (5) several times until the light of the program required comes on.

STARTING THE PROGRAM

To start the dishwasher, press the **START/PAUSE** button (4) for a few seconds, until the light of the selected program starts to flash (confirmation beep).

The light will flash as long as the program is in progress, to indicate that it is being performed.
